PROFILE

I'm an energetic and extroverted junior frontend developer, specializing in React, HTML, CSS, and JavaScript. Additionally, I have hands-on experience with frontend frameworks like Tailwind CSS and Bootstrap. I thrive in fast-paced, team-oriented environments and excel at bridging the gap between technical excellence and clear communication. My unwavering passion for learning and my commitment to personal and professional growth drive me to bring a positive, collaborative spirit to every project I engage in.

WORK EXPERIENCE

FRONTEND DEVELOPER

IT Investment Company

July 2023 - Present

- Developed responsive web applications with React, HTML, CSS, and JavaScript.
- Employed Styled Components and Sass for effective and organized styling.
- Collaborated within a dynamic team, actively engaging in daily stand-ups and code reviews.
- Focused on optimizing website performance and ensuring cross-browser compatibility.
- Continuously improved skills and embraced new challenges in a fast-paced development environment.
- Played a pivotal role in crafting user-friendly and visually appealing frontend interfaces.
- Adapted to evolving web technologies and applied innovative solutions to enhance user experiences.
- Worked closely with UX/UI teams to translate design concepts into functional web interfaces.
